### **DETAILED ACTION**

Claims 10, 11, 13, 49 and 50 are pending and under examination.

#### ***35 USC § 112 1<sup>st</sup> paragraph rejection withdrawn***

The rejection of claims 10, 11 and 13 under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement is withdrawn in view of the amendments to claims 10, 11 and 13.

#### **NEW REJECTION: based on amendment.**

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 10, 11 and 13 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. THIS IS A NEW MATTER REJECTION.

There is no support in the specification as filed for a method for assessing the likelihood of a tumor metastasizing, other than a colon tumour. The only support in the specification for a method for determining the likelihood of a tumor metastasizing is on page 17, 3rd paragraph of the specification, " The invention relates to the correlation of the (among other factors transcriptional) expression level of 7a5/Prognostin with the organ specificity of metastatic spread and also to the probability of formation of distant metastases in the case e.g. of colon carcinomas". Further, the only type of tumor

discussed in the Examples section concerned the likelihood of a colon carcinoma tumor metastasizing (pages 28 and 29).

### ***Summary***

Claims 10, 11 and 13 stand rejected.

Claims 49 and 50 are allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
